1. BACKGROUND

Masakheni Isizwe is a 100% black woman owned, level 1 BBBEE contributor founded in 2007 supplying a variety of globally backed products to the mining, industrial, banking and construction sectors ranging from Alternative Power Backup Solutions, hydraulic sales and services, specialist mining and construction supplies, lifting and safety equipment, steel and general industrial consumables. Our integrated service offering extends from procurement and commissioning through to maintenance, technical support and asset rental.

2. VISION

“To be the most sought-after African service provider to the mining, banking, construction and industrial sectors with high-quality products, turnkey solutions and responsive support services ensuring customer satisfaction through passion, reliability, integrity and dedication.”

3. VALUES

- Integrity
 - *Pursue all our deals with integrity*
- Professionalism
 - *Conduct ourselves professionally*
- Flexibility
 - *Respond to customer needs*
- Reliability
 - *Always follow our commitments*
- Development
 - *To develop, empower and sustain previously disadvantaged individuals*

4. OUR BUSINESS

We provide a flexible and creative logistic model to ensure efficient service delivery at competitive prices. We also offer comprehensive business support which integrate problem solving and after sales support. We believe in operating at the cutting edge by providing globally backed solution to the sectors that we service.

5. OUR SUPPLIES

We have been servicing the mining, industrial, banking, construction and agriculture industries for many years with quality products and services. Our main focus is local and selected African regions. Our clients include major mining, banking and construction companies and we pride ourselves to provide only top-quality brands and products at competitive prices. For all our vendors, we're not just their distributor but an extension and representative of their brands and customer service, so they have vested in giving us world class service and in turn enabling us to give the same to our clients.
